16
17 ▲ CRITICAL INDICATORS:
18   [!] [Deception] Brand Spoofing: 'microsoft365-
  security-check.net' targets 'MICROSOFT'
19   [!] [Intel] WHOIS Obscured: 'microsoft365-security-
  check.net'
20
21 ☐ AI FUSION INSIGHTS:
22   • https://microsoft365-security-check.net/login →
  Suspicious: The email context creates a sense of
  urgency and fear by claiming t
23 that the recipient's Microsoft 365 password will
  expire today and their acc
24 account will be suspended if they fail to verify it
  within 2 hours. Additio
25 Additionally, the link provided is not a reputable
  domain for Microsoft, wh
26 which suggests brand impersonation. The use of "
  microsoft365-security-check
27 "microsoft365-security-check.net" as the domain name
```

```
27 might indicate typosqu
28 typosquatting or homograph attacks. The sender's
   email address should be an
29 analyzed to ensure it aligns with the claimed brand.
